Instructions for Announcement Call for Scholarships
The "Clore Scholars Programme"
for 2022-2023 Academic year

The Clore Scholars Programme issued, an announcement call for PhD students in all following fields:

- natural sciences, including mathematics, physics, chemistry, the life sciences, earth sciences, computer science, agriculture, engineering, and technology
- MD/PhD students

Attached are the "Clore Scholars Programme" guidelines and regulations. Please pay attention to all the regulations and procedures specified Please be sure to distribute and inform all the relevant parties of these regulations and procedures.

Applications to the Clore Scholars Programme may not be concurrently submitted to the scholarship programmes of the Adams Foundation, Azrieli Foundation, or the Arian de Rothschild Foundation.

Please note: It is not permitted to receive this scholarship in parallel with a scholarship in the name of a donor or in parallel with another external scholarship.

Submission Criteria

(In addition to the criteria specified in the Clore Scholars Programme announcement call's guidelines and regulations):

- The Scholarship is intended only for students who have Israeli citizenship.
- Applicants will have an M.Sc. (Or B.Sc. for special track/direct PhD track), who meet the following criteria:
  1. Students who have begun their doctoral studies not more than one and a half years before the deadline date for the submission of the application, i.e. no earlier than 16.7.2020.
  2. Students who have submitted their doctoral proposal, even if this is not yet approved. In this case, the submitting institution is obliged to notify the programme coordinator immediately upon receipt of approval of the doctoral proposal. The awarding of the scholarship is dependent on this approval.
     An academic unit whose applicants will be submitted to the "Clore Scholars Programme" scholarship, undertakes to notify the graduate school immediately upon approval of the research proposal (passing of the candidacy examination) if it was not approved prior to submitting the application.
  3. Students who are eligible for a full scholarship (at least 4 monthly Technion scholarship portions) for the entire 2022-2023 academic year, at least.
